

Flavor
Purity
Economy

Things baked with economical Cottolene are digestible and wholesome. For instance, pie crust made with Cottolene really is wholesome. Both top crust and bottom crust are flaky and flaky.

Cottolene makes delicious cakes, too. Remember always: You use one-third less of Cottolene than of expensive butter or other shortenings. This is because Cottolene sets the highest possible standard for purity and richness.

RECIPE

Saucer Pies

1 1/2 cups flour 1/2 teaspoon salt
1/2 cup Cottolene 1/2 teaspoon baking powder
1/2 cup Cottolene Ice water

Sift together flour, baking powder and salt. Chop in chilled Cottolene with knife (reserving 1 1/2 tablespoons). Add just enough ice water to form soft dough. Roll in thin sheet and spread with remaining Cottolene. Roll like jelly roll and chill. Then stand roll on end, press down with hand and roll again. Cut to fit small saucers and fill with desired filling. Finish with strips of pastry arranged lattice-work fashion.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more yawning, sniffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relieves swollen instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.—(Adv.)

Buy All the Clothes You Possibly Can—NOW!

FRIEDMAN'S

\$12.50 and \$17.50

Suits and Overcoats

are positively the best clothing values you can buy now or will ever be able to buy—but—the present outlook for the future wool situation is not at all bright. At any time the Government may order all clothing to be made from wool and cotton mixtures. In that event, the quality of clothing fabrics will be greatly reduced, but clothing prices will continue to soar. So now it behooves every man to anticipate his future clothing needs and buy while all-wool clothes can still be had—and to BUY AT FRIEDMAN'S, where the kind of clothing others ask up to as high as \$30, may be had for only \$12.50 and \$17.50.

EVEN SOCIALIST PRAISES WILSON

Meyer London Indorses Peace Message of Chief Executive of Nation.

(Special to The News.) Washington, Jan. 15.—Congress has dropped in the commendable habit of saying nice things about the president of the United States. This is a surprise.

Who in the whole wide world was prepared for the eulogy that Meyer London, the socialist member from New York, posted out last Friday upon President Wilson because of his statement of America's peace terms?

The president was also warmly indorsed in the Lewis resolutions, which Senator Lewis will call up for debate and adoption early this week. They cover the whole ground—the terms of peace, as outlined by the president's last message.

But Mr. London, who a short time ago was America's loneliest man, spoke for more than an hour upon the socialist definition of war and peace. London got considerable applause and respectful attention for his pains. He spoke in his characteristic, frank way.

Had President Wilson, the New York representative declared, "he had seen President Wilson come into the house he had a 'presentiment' that the chief executive was going to say something that socialists would like." President Wilson and the socialist program are but a very short distance apart now, Mr. London told his colleagues.

While Meyer London didn't want war he always branded the sinking of the Lusitania as an "unspeakable horror," and an act of barbarism which the civilized world will never forgive.

The New Yorker also praised his countrymen to New York officials, from Mayor Hylan down, and said there was an intelligence famine in Gotham's city hall. London then proceeded to close his surprising speech by handing a jolt to many newspapers which have attacked him in the past.

He said the worst form of prostitution is in the making of a hypocrite out of a brilliant penman.

Several months ago, it will be recalled, Mr. London was an unpopular man in congressional hall. He voted against war, armament, and other defense programs, but his effort to reconcile the peace claims of his party with those promulgated by the president shows that his desire for a cessation of hostilities is sincere.

A national power commission, composed of the secretaries of war, of interior and of agriculture, is the object of an administration bill under consideration by the house committee on water-power, to be appointed shortly, to have a hydro-electric administrator, appointed by President Wilson and ratified by the senate.

The simple of all water power opportunities will be leased for half a century and retained under strict control. The new bill will provide for every power which the government has acquired in this connection, except actual power itself. It was introduced by Mr. Ferris and used in behalf of the president, who intervened to prevent possible public loss under the terms of some bills already pending.

Secretary Baker's testimony before the senate investigating committee will serve to assure the country not to be alarmed about the apparent slowness of American war preparations.

His statement that accommodations are sufficient for all fighting men actually to be sent to the front will come as a relief to mothers throughout the United States who feared for the welfare of boys about to be called in the second draft.

As fast as the first National army troops are sent over space will be reserved in the various camps for incoming men.

If it were possible for newspapers to print figures about troop movements, there would make interesting reading. There are many more Americans in France now than the war department cares to make known, and the worst part of it is, that parents of boys "over there" will never know of their arrival except by personal communication from the boys themselves.

The secretary of the department draws over embarkation movements is a summary of American soldiers are afforded the broadest measure of protection.

MINORITY OF PERUVIAN SENATE GO ON STRIKE

Washington, Jan. 15.—A strike of the minority members of the Peruvian senate, which caused two special sessions of congress to expire without action because of inability to obtain a quorum, was reported in official dispatches from Lima.

Election disputes precipitated the walkout of the legislators. A third session has been called and the majority is securing the country for absenteeism to permit organization.

AUTOISTS HAVE TUGHER TIMES ON CUMBERLAND

(Special to The News.) Sequatchie, Jan. 15.—Autoists have been having tough times on Cumberland mountain during this blizzard and cars, when stalled, have literally been frozen to the ground.

Friday night an aged man, who was crippled, was left here in a Ford to cross the mountain. They had been in Florida and were on their return north. When near the tollgate on the mountain their engine quit and they were unable to proceed further. Night had fallen and the blizzard was raging through the forests. They were ignorant as to where to find a house for shelter and they were unable to proceed.

They had no matches and were unable to build a fire so as to keep warm. In a half frozen condition they awaited daylight, and when it came, saw a dwelling not over a hundred yards away, which in the darkness of the night they had not suspected was there. It was impossible to move their machine, as it was frozen in the ground, and they have been staying with the mountaineers awaiting a change in weather conditions so as to extricate their machine and proceed.

Near Myer's hill, four miles from Tracy City, a big, fine car is frozen solid in the ground. The driver was proceeding this way and, lured by a better-appearing road, left the main road to try it. He had not proceeded far till his machine sank to the axles in soft ground. His efforts to extricate his car with its own power were unavailing, even when augmented with a cable. He summoned assistance from the garage at Tracy City, but before help could arrive his machine was frozen solid in the bog and there it remains. He, too, is awaiting a change in weather conditions when his machine may be removed and his journey to the warmer clime of Florida resumed.

COPIES WILSON'S SPEECH DROPPED FROM AIRPLANE

Amsterdam, Monday, Jan. 14.—The newspaper Le Nieuwspost says that a number of allied airplanes last Thursday dropped copies of President Wilson's message to congress on occupied areas in Belgium.

LIEUT.-COL. JOHNSON SLATED TO SUCCEED GENERAL CROWDER

Washington, Jan. 14.—Lieut.-Col. H. S. Johnson, cavalry officer, is scheduled to succeed Provost Marshal-General Crowder as executive head of the selective service army organization, according to reports from the war department.

Now that the selective service machinery is organized Crowder is needed for duties with the superior war board, of which he is a member, and for work in the office of the judge advocate-general, which office he still heads.

Lieut.-Col. Johnson is one of the big young men of the army. Six months ago he held the rank of captain. His promotion to a brigadiership is expected when he takes charge of draft army organization.

Johnson is known among his fellows as a "regular stem-winder." He has punch and pep, understands clearly what is to be done, senses the way to do it and has it over with before most folks would have grasped the problem before them. Of his work as an executive officer of the draft Gen. Crowder himself says:

"Such commendation as the administration of this office merits will be found due, in great measure, to Lieut.-Col. Johnson. It has rarely happened in our service that an officer of his age and experience has been called upon to perform such responsible duties. In their performance he has challenged and held my attention in a very special way and the opinion of all associated with him is confirmatory of my own of the indefatigable zeal and energy and the great ability with which he has addressed himself to his task."

The senate investigating committee will serve to assure the country not to be alarmed about the apparent slowness of American war preparations.

His statement that accommodations are sufficient for all fighting men actually to be sent to the front will come as a relief to mothers throughout the United States who feared for the welfare of boys about to be called in the second draft.

As fast as the first National army troops are sent over space will be reserved in the various camps for incoming men.

If it were possible for newspapers to print figures about troop movements, there would make interesting reading. There are many more Americans in France now than the war department cares to make known, and the worst part of it is, that parents of boys "over there" will never know of their arrival except by personal communication from the boys themselves.

The secretary of the department draws over embarkation movements is a summary of American soldiers are afforded the broadest measure of protection.

DE KALB COUNTY RAISES LARGE CROPS

(Special to The News.) Fort Payne, Ala., Jan. 15.—The value of the crops of DeKalb, just estimated by the government for the year 1917, are a little less than five million dollars. The chief crop was corn, the value being a little more than one and a half million. Corn is the best crop the county makes, cotton second, and hay third, being valued at nearly three hundred thousand dollars. A good crop of Irish potatoes and cowpeas were raised, cowpeas being worth nearly two hundred thousand dollars and Irish potatoes a little more. The crop of syrup, oats and sweet potatoes were worth something over a hundred thousand dollars. This is a record for any county to be proud of and unless unusual conditions occur, it is safe to say this mark will be passed this year, as DeKalb county's farmers are planning larger crops than ever.

On account of the shortage of coal, county work had to be postponed for last week.

COTTON CONSUMED PAST MONTH 516,580 BALES

Washington, Jan. 15.—Cotton consumed during December amounted to 516,580 running bales, and for the eight months ending Dec. 31, 2,794,761 bales, the census bureau today announced.

GERMANY'S STAR AERO KILLED AS RESULT FALL

Amsterdam, Jan. 15.—The death of Vice-Sergeant Max Muller, one of the most successful German airmen, is reported in a Munich dispatch to the Lokai Anzeiger, Berlin. Muller was killed in a fall resulting from a defect in his engine. He claimed thirty-eight victories in aerial engagements.

SINN FEINERS THREATEN TO ORGANIZE ASSEMBLY

London, Jan. 15.—The Sinn Fein executives, says a Dublin dispatch to the Daily Chronicle, will shortly demand that Irish nationalist members of parliament resign. In the event of non-compliance the Sinn Fein propose to establish in Dublin what they call a national assembly.

DEFAUDRED JEWELERS AND WOMEN OF \$30,000.

Horace C. Payne, of Boone, Iowa, held On Two Thousand Bail at Philadelphia.

Philadelphia, Jan. 15.—Charged with defrauding jewelry firms and women socially prominent in many parts of the country out of more than \$30,000

BARONESS SEEKS RELEASE ON BOND

Case To Be Heard Wednesday in Knoxville Before Judge Sanford.

(Special to The News.) Knoxville, Jan. 15.—Baroness Ione W. Zollner will be brought to Knoxville Tuesday afternoon by United States Marshal J. B. Thompson for her hearing before Judge E. T. Sanford Wednesday. She will seek her release on bond from the Hamilton county jail, where she is held without bail on the charge of espionage.

The baroness claims that continued confinement in the jail will result fatally to her. The claim is substantiated by the affidavit of Dr. Y. L. Abernathy, of Chattanooga, who has treated her since her confinement in that jail on Dec. 15. He states that if the prolonged confinement did not result fatally to her, it would cause her to lose her mind.

In her petition, which was presented to Judge Sanford last Wednesday by her attorney, C. C. Abernathy, she claimed that on account of the fact that she has three children, and a large amount of property in this country, she could not well evade the law, if she so desired. She asks that she be released on reasonable bond, which she states she can readily make.

An investigation has been made of the county jail here, where she will be confined during her stay in Knoxville. It is reported by Marshal Thompson in excellent condition. This inspection was made because of a complaint against the confinement in the Hamilton county jail. The authorities are anxious that, while she is kept in strict confinement at all times, she shall have no reason to complain about the condition of her quarters.

IRISH HOME RULE TO BE GIVEN IMPETUS

Convention Meets Tuesday. Opposition Press Steady Against Compromise.

Dublin, Monday, Jan. 14.—The Irish home rule convention will hold its thirty-first sitting Tuesday. All the proceedings of the grand committee of twenty are now before the convention and definite conclusions are expected at once.

Whether or not the convention succeeds in bringing the Ulster unionists into a union with the nationalists, the Irish think the proceedings have accomplished a great good in bringing together the nationalists and unionists of the south and west and determining the principles on which Irishmen of all sections could come together in a large scheme of autonomy.

There is a rumor of an impressive majority report by the delegates of all creeds and politics outside of Ulster. The press of Belfast remains as steadfast as ever in opposition to any compromise with home rule.

BERLIN "HOME WARRIORS" WEAR IRON CROSS, TOO

Government Appeals for Soldiers to Return Insignia in Protest.

London, Jan. 15.—An appeal is being circulated among mutilated German officers and soldiers having the iron cross asking them to return the crosses as a protest against the fact that a number of home warriors and leaders of the Fatherland are wearing the same insignia, according to an Exchange Telegraph dispatch from Amsterdam. There has been a large response, thirteen hundred crosses from Berlin alone have been sent to the minister the first day the appeal appeared.

PHYSICIANS EXPLAIN WHY WOMEN NEED MORE IRON IN THEIR BLOOD TODAY THAN 20 YEARS AGO

Say Anaemia—Lack of Iron Is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

DR. FERDINAND KING, New York Physician and Medical author, says physicians should prescribe more organic iron—Nuxated Iron—to supply the iron deficiency. Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City; Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner; Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, and other physicians who have thoroughly tested the value of Nuxated Iron.

Any woman who tries easily, is nervous or irritable, or looks pale, haggard and worn, should at once have her blood examined for iron deficiency—administration of simple Nuxated Iron will often increase the strength and endurance of weak, nervous, careworn women 100 per cent. in two weeks' time.

"There can be no strong, healthy, beautiful, rosy-cheeked women without iron," says Dr. Ferdinand King, a New York Physician. "Thousands of women suffer from iron deficiency on the grave and serious consequences of iron deficiency in the blood of American women."

Dr. King has strongly stated the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fails, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks.

"In the most common food of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, blancets, macaroni, spaghetti, tapioca, sago, farina, degerminated corn meal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these cereals and flours, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, if you wish to preserve your youthful vim and vigor to old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ill-physical weakness, nervous irritability, melancholy, inability to do their work, etc., etc., and in consequence of their weakened, run-down condition they are so liable to contract serious and fatal diseases that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients, with most successful results. And those who wish quickly to increase their strength, power and

by means of alleged fraudulent checks, Horace C. Payne, 25 years old, of Boone, Iowa, was held under \$2,000 bail here for a further hearing next Monday. When arrested he wore a uniform corresponding to that of a lieutenant of the United States medical corps. The authorities declare Payne is not a member of "the medical corps, and say he was recently released from prison at Santa Fe, N. M., after serving eighteen months for swindling. He is wanted, according to the police, in New Orleans, New York, Baltimore, San Diego, Cal., and other cities.

CASH ON DELIVERY
MCAODD'S LATEST Proposition to Deliver and Collect for Securities of Homes of People.

Washington, Jan. 15.—Sale of war stamps through a "cash on delivery" at the home of the purchaser at the latest of what was announced by Secretary McAdoo, is said to be first undertaking of any to deliver and collect for its securities at the homes of its people.

The plan is outlined last night by Secretary McAdoo. It is to send some 25,000,000 post cards into as many homes appealing for subscriptions to the war savings stamps. To each card will be attached a return card on which the recipient may write the amount of stamps he wishes to purchase, and which may be mailed without cost to the nearest postmaster. A postman will deliver and collect for the stamps.

If only one stamp is bought in each home reached by the message, the campaign will net more than \$100,000,000.

GOVERNMENT ALLOWS \$3.50 PER ACRE FOR LAND

(Special to The News.) Knoxville, Dec. 15.—The sum of \$3.50 per acre has just been allowed for the 3,334.41 acres of land in Union county which was condemned by the government to be made a part of the federal forest reserve. The tract is to be added to about 100,000 acres, already secured by the government, to make the new reserve. Federal officials are back from the inspection tour.

LATEST ISSUE NOT TO BE CLOSED TODAY

Subscriptions for Two Hundred and Fifty Millions Allotted Within Month.

Washington, Jan. 15.—The latest issue of treasury certificates of indebtedness, dated Jan. 2 and planned in anticipation of collection of taxes in June, will not be closed today, as previously announced. Subscriptions, for about \$250,000,000 have been received and allotted within the last month, making the total of the certificates maturing June 25 about \$400,000,000.

The sale of so large an amount more than five months before the taxes are due is very gratifying, said a treasury statement last night.

"The secretary has directed the federal reserve banks to receive subscriptions for certificates of this issue at par and accrued interest and until further notice to make all allotments in full in the order in which the subscriptions are received, still reserving the right, however, to close the issue at any time, to reject any subscriptions and to allot less than the amount subscribed for."

BUENOS AIRES TO SELL WHEAT TO THE ALLIES

Buenos Aires, Jan. 15.—The foreign minister has signed an agreement with the British and French ministers to sell 2,500,000 tons of wheat to the entente allies. Argentina is to open a credit at the Bank of the Nation in favor of the allies for \$100,000,000, to be liquidated in two years. This arrangement is virtually a huge loan to the allies and is made in order to stabilize the rate of exchange.

PHYSICIANS EXPLAIN WHY WOMEN NEED MORE IRON IN THEIR BLOOD TODAY THAN 20 YEARS AGO

Say Anaemia—Lack of Iron Is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

DR. FERDINAND KING, New York Physician and Medical author, says physicians should prescribe more organic iron—Nuxated Iron—to supply the iron deficiency. Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City; Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner; Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, and other physicians who have thoroughly tested the value of Nuxated Iron.

Any woman who tries easily, is nervous or irritable, or looks pale, haggard and worn, should at once have her blood examined for iron deficiency—administration of simple Nuxated Iron will often increase the strength and endurance of weak, nervous, careworn women 100 per cent. in two weeks' time.

"There can be no strong, healthy, beautiful, rosy-cheeked women without iron," says Dr. Ferdinand King, a New York Physician. "Thousands of women suffer from iron deficiency on the grave and serious consequences of iron deficiency in the blood of American women."

Dr. King has strongly stated the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fails, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks.

"In the most common food of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, blancets, macaroni, spaghetti, tapioca, sago, farina, degerminated corn meal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these cereals and flours, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, if you wish to preserve your youthful vim and vigor to old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information or advice for publication as I ordinarily do not believe in it. But so many American women suffer from iron deficiency with its attendant ill-physical weakness, nervous irritability, melancholy, inability to do their work, etc., etc., and in consequence of their weakened, run-down condition they are so liable to contract serious and fatal diseases that I deem it my duty to advise such to take Nuxated Iron. I have taken it myself and given it to my patients, with most successful results. And those who wish quickly to increase their strength, power and

endurance will find it a most remarkable and wonderfully effective remedy."

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner, says: "Throughout my experience on Hospital staffs and as a Medical Examiner, I have been astonished at the number of patients who have vainly tried to do their work, and who have really their delicate, run-down state was simply the result of lack of iron in the blood. Time and again I have prescribed organic iron—Nuxated Iron—and surprised patients at the rapidity with which the weakness and general debility were replaced by a renewed feeling of strength and vitality. I took Nuxated Iron myself to build me up after a serious case of nervous exhaustion. The effects were apparent after a few days and within three weeks it had virtually revitalized my whole system and put me in a superb physical condition."

Dr. E. Sauer, a Boston physician, who has studied both in this country and in Great European Medical Institutions, says: "I am a great believer in Nuxated Iron. It often acts almost like magic. I have seen a man come to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the buoyancy of youth."

As full of vigor, vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was in taking Nuxated Iron. He had filled him with renewed life. At 30 he was in bad health; at 40 he was careworn and nearly all in a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the buoyancy of youth."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says: "Thousands of persons go on suffering year after year, doctoring themselves for all kinds of ills, when the real and true cause underlying their condition is simply a lack of sufficient iron in the red blood corpus-

CAS TONIA
For Infants and Children.
Mothers Know That Genuine Castoria Always Bears the Signature of Dr. J. C. Ayer & Co. In Use For Over Thirty Years CASTORIA

Just Once! Try Dodson's Liver Tone! Take No Calomel! Listen To Me!

If bilious, constipated, headachy or sick, I guarantee relief without taking dangerous calomel which sickens and salivates.

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crashesto into it, breaking it up. This is when you feel that awful nausea and cramping. If you are "all knocked out," if your liver is torpid and remains constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful tonight, and if it doesn't straighten you right up and make you feel fine and vigorous by morning, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep the entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

Physicians Explain Why Women Need More Iron in Their Blood Today Than 20 Years Ago

Say Anaemia—Lack of Iron Is Greatest Curse to the Health, Strength, Vitality and Beauty of the Modern American Woman.

DR. FERDINAND KING, New York Physician and Medical author, says physicians should prescribe more organic iron—Nuxated Iron—to supply the iron deficiency. Opinions of Dr. Schuyler C. Jacques, Visiting Surgeon, St. Elizabeth's Hospital, New York City; Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner; Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, and other physicians who have thoroughly tested the value of Nuxated Iron.

Any woman who tries easily, is nervous or irritable, or looks pale, haggard and worn, should at once have her blood examined for iron deficiency—administration of simple Nuxated Iron will often increase the strength and endurance of weak, nervous, careworn women 100 per cent. in two weeks' time.

"There can be no strong, healthy, beautiful, rosy-cheeked women without iron," says Dr. Ferdinand King, a New York Physician. "Thousands of women suffer from iron deficiency on the grave and serious consequences of iron deficiency in the blood of American women."

Dr. King has strongly stated the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fails, and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women the roses go from their cheeks.

"In the most common food of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, blancets, macaroni, spaghetti, tapioca, sago, farina, degerminated corn meal, no longer is iron to be found. Refining
